Numbers. Numbers. So many numbers are floating around your head! You need to find the best riddle, but how can you with so many numbers in your head?

Turn the page when two monsters correctly answer one of your riddles.

Always seeming cryptic and incomprehensible is vital to maintaining your status. Turn the page when you have gotten at least three other creatures to hold hands with you in a circle (players may pretend to hold hands if you are not comfortable with physical contact) and then walk clockwise around that circle for 30 seconds, then counter-clockwise for 30 seconds.
